Education

Federal University of Ceará (CAEN)

Fortaleza, Brazil

M.Sc. in Economics

Expected completion: December 2026

Federal University of Ceará

Fortaleza, Brazil

B.A. in Economics, Summa Cum Laude

2024

Undergraduate thesis: *Enhancing State GDP Projections with MIDAS and Google Trends: Evidence from Ceará.*

Research Fields

Econometrics; Poverty and Inequality; Development Economics

Research Experience

CNPq Research Fellow — Climate Vulnerability and Public Targeting Project Fortaleza, Brazil

Federal University of Ceará

2025 – Present

- Conducting CNPq-funded research on climate vulnerability classification, environmental policy targeting, and public resource allocation in Northeast Brazil.
- Applying classification methods, latent-state approaches, and municipal-level administrative data to study the connection between vulnerability measurement and allocation channels.

Research Assistant — BNDES / SUDENE Consulting Project

Fortaleza, Brazil

Federal University of Ceará

2024 – 2025

- Contributed to empirical evaluations of regional tax and credit incentives in Northeast Brazil in a consulting project for BNDES.
- Built and analyzed municipal and regional datasets to support policy-oriented outputs, causal assessment, and evidence-based recommendations.

Undergraduate Research Fellow

Fortaleza, Brazil

Federal University of Ceará

2023 – 2025

- Conducted funded research on the effects of deforestation in the Brazilian Legal Amazon on foreign trade.
- Produced literature reviews, prepared datasets, and supported empirical analysis.

Research Output

Accepted / conference presentation

- ***Text-Based Financial Stress and Sovereign Risk in Brazil.*** Accepted for presentation, Brazilian Finance Congress. *(With Victor L. Stilita and Ramon Lima Ribeiro)*
- ***Enhancing State GDP Projections with MIDAS and Google Trends: Evidence from Ceará.*** Accepted for publication. *(With Fabrício C. Linhares)*

Selected research

- ***Distributional Functionals in Fixed-Effects Panels: A Weighted-Average Quantile Approach.*** Under review.
- ***A Threshold Spatial Durbin Panel Model: Estimation, Bias Correction, and Inference.*** *(With Fabrício Carneiro Linhares)*

Submitted / under review

- ***Common-Shock-Robust Inference for Extreme Panel Quantiles.*** Under review.
- ***Who Bears the Burden of Monetary Tightening? Credit Default Responses Across Income Groups and Firm Sizes in Brazil.*** Under review. *(With Ramon Lima Ribeiro and Victor L. Stilita)*

- *From Climate-Vulnerability Indicators to Environmental Policy Targeting: Classification Rules and Public Resource Allocation in Northeast Brazil.* Under review. (With Fabrício C. Linhares)
- *Sectoral Productive Shocks and Poverty Reduction in Brazilian Microregions.* Under review.
- *Nowcasting Brazilian Quarterly GDP: Mixed-Frequency Econometric and Machine Learning Models Under Multiple Performance Criteria.* Under review.
- *Intersectional Lower-Tail Wage Rigidity in Brazil: Evidence from Census Data and Synthetic Cohorts.* Submitted, ANPEC Regional. (With Ramon Lima Ribeiro)

Works in progress

- *Local Grocery Structure and the Incidence of Food-Cost Shocks: Evidence from Fortaleza, Brazil.* Work in progress. (With Fabrício C. Linhares)
- *Decomposing Inequality in Brazil: An Analysis of Gini Coefficient Subgroups.* Work in progress. (With Ramon Lima Ribeiro and Felipe S. Bastos)
- *Credit with Discipline? CAPAG, Federal Guarantees, and Municipal Investment Additionality.* Work in progress. (With Ramon Lima Ribeiro)

Teaching Experience

Teaching Assistant — Time-Series Econometrics	Fortaleza, Brazil
<i>Federal University of Ceará</i>	<i>2026 – Present</i>

- Serve as Teaching Assistant for the undergraduate course in Time-Series Econometrics, supporting problem sets, student guidance, and course organization.

Teaching Assistant — Economic Growth Theories	Fortaleza, Brazil
<i>Federal University of Ceará</i>	<i>Spring 2025</i>

- Served as Teaching Assistant for the undergraduate course in Economic Growth Theories, assisting with course activities and student support.

Fellowships and Honors

- CNPq Research Scholarship.
- PIBIC Undergraduate Research Fellowship.
- PET Fellowship.
- *Summa Cum Laude*, B.A. in Economics, Federal University of Ceará.

Technical Skills

Programming and statistical software: R, Python, Stata, Excel, L^AT_EX

Methods: Panel data, quantile regression, spatial econometrics, policy evaluation, forecasting

Research workflows: Data cleaning, administrative-data integration, survey microdata, replication packages, empirical analysis, literature review, academic writing
