Education

Federal University of Ceará (CAEN) Expected December 2026
M.Sc. in Economics
M.Sc. thesis: *Regime-Dependent Spatial Multipliers in Panel Data: A Threshold Spatial Durbin Approach.*

Federal University of Ceará 2024
B.Sc. in Economics, Summa Cum Laude
Undergraduate thesis: *Enhancing State GDP Projections with MIDAS and Google Trends: Evidence from Ceará.*

Research Fields

Econometrics · Poverty and Inequality · Development Economics

Research Output

Published

Who Bears the Burden of Monetary Tightening? Credit Default Responses Across Income Groups and Firm Sizes in Brazil.
International Economics and Economic Policy, 2026. With Ramon Lima Ribeiro and Victor L. Stilita. DOI.

Accepted for Publication

Enhancing State GDP Projections with MIDAS and Google Trends: Evidence from Ceará.
Revista Econômica do Nordeste, 2025. With Fabrício C. Linhares.

Sectoral Productive Shocks and Poverty Reduction in Brazilian Microregions.
Revista Brasileira de Estudos Regionais e Urbanos, 2026.

In Revision

Common-Shock-Robust Inference for Extreme Panel Quantiles.
Econometrics and Statistics.

Under Review

Nowcasting Brazilian Quarterly GDP: Mixed-Frequency Econometric and Machine Learning Models Under Multiple Performance Criteria.
Journal of Forecasting.

Conference Papers — 2026

Regime-Dependent Spatial Multipliers in Panel Data: A Threshold Spatial Durbin Approach.
48th Brazilian Meeting of Econometrics (EBE). With Fabrício C. Linhares.

Water Storage Capacity and Child Health under Drought in Brazil.
XXIV ENABER. With Ramon Lima Ribeiro and João Mário Santos de França.

Public Development Credit and Agricultural Resilience to Drought: Evidence from Brazil's Semi-Arid Northeast.
ANPEC National Meeting. With Ramon Lima Ribeiro, Christiano Modesto Penna, and Felipe de Sousa Bastos.

Intersectional Lower-Tail Wage Rigidity in Brazil: Evidence from Census Data and Synthetic Cohorts.
ANPEC Regional Meeting. With Ramon Lima Ribeiro.

Water Infrastructure and Drought Resilience in the Brazilian Semi-Arid: Evidence from the São Francisco River Integration Project.
ANPEC Regional Meeting. With Ramon Lima Ribeiro.

Text-Based Financial Stress and Sovereign Risk in Brazil.
Brazilian Finance Congress. With Victor L. Stilita and Ramon Lima Ribeiro.

Work in Progress

Distributional Functionals in Fixed-Effects Panels: A Weighted-Average Quantile Approach.

Decomposing Inequality in Brazil: An Analysis of Gini Coefficient Subgroups.
With Ramon Lima Ribeiro and Felipe S. Bastos.

Research Experience

Researcher 2026 – Present
Ceará Development Agency (ADECE)
Work primarily on the development of socioeconomic indicators for public-policy analysis and policy evaluation, using administrative, municipal, and regional data.

CNPq Research Fellow — Climate Vulnerability and Public Targeting Project 2025 – Present
Federal University of Ceará
Research on climate-vulnerability classification, environmental-policy targeting, and public resource allocation in Northeast Brazil using municipal administrative data and latent-state methods.

Research Assistant — BNDES / SUDENE Consulting Project 2024 – 2025
Federal University of Ceará
Contributed to empirical evaluations of regional tax and credit incentives in Northeast Brazil and built municipal and regional datasets for policy-oriented analysis.

Undergraduate Research Fellow 2023 – 2025
Federal University of Ceará
Conducted funded research on deforestation in the Brazilian Legal Amazon and foreign trade, including data preparation, literature review, and empirical analysis.

Teaching Experience

Teaching Assistant — Time-Series Econometrics 2026 – Present
Federal University of Ceará
Undergraduate course; problem sets, student guidance, and course organization.

Teaching Assistant — Economic Growth Theories Spring 2025
Federal University of Ceará
Undergraduate course; course activities and student support.

Fellowships and Honors

CNPq Research Scholarship · PIBIC Undergraduate Research Fellowship · PET Fellowship

Technical Skills

Programming and statistical software: R, Python, Stata, Excel, LaTeX

Methods: Panel data, quantile regression, spatial econometrics, policy evaluation

Languages

Portuguese (native) · English (B2) · French (B1)
